

SPRING 2018
PRICE LIST

Riverbend Orchards is a family-owned business located on the outskirts of Portage la Prairie, Manitoba. Our 20 acre orchard includes production of Saskatoon berry, haskap, cherry, raspberry, aronia, gooseberry and fruit trees such as apple and plum.

We have developed an efficient system for the clonal propagation of small fruit plants. Haskap are propagated by collecting cuttings from young plants growing in our fields. Rooting of cuttings is done under greenhouse mist in customized Ellepots. Our finished plants have excellent vigour and survival and have received rave reviews from producers across Canada and the northern United States.

Riverbend Orchards is proud to be a licensed propagator of 'Aurora', 'Borealis', 'Honey Bee' and 'Tundra' haskap cultivars from the University of Saskatchewan. We also propagate smaller numbers of 'Berry Blue' haskap as a pollinizer cultivar.

We are taking orders for spring 2018 delivery of the following haskap cultivars:

'Aurora' 'Borealis' 'Tundra' 'Honey Bee' 'Berry Blue'

Pricing for rooted cuttings is as follows for combined quantities of different cultivars:

1-49 @ \$6.00 per plant (additional 50 cent royalty for Aurora, Borealis, Honey Bee & Tundra)

50-149 @ \$4.00 per plant (additional 50 cent royalty for Aurora, Borealis, Honey Bee & Tundra)

150-249 @ \$3.75 per plant (additional 50 cent royalty for Aurora, Borealis, Honey Bee & Tundra)

250-499 @ \$3.50 per plant (additional 50 cent royalty for Aurora, Borealis, Honey Bee & Tundra)

500-999 @ \$3.25 per plant (additional 50 cent royalty for Aurora, Borealis, Honey Bee & Tundra)

1000+ @ \$3.00 per plant (additional 50 cent royalty for Aurora, Borealis, Honey Bee & Tundra)

A 10% discount off of the above prices applies to orders from our American clients that are paid in U.S. currency.
